

About Spicer-Baer Associates, Inc.

Spicer-Baer Associates, Inc. (SBA) is a software company in business since the year 2000. In the early days of SBA, we focused on Windows desktop applications for corporate budgeting. PerpetualBudget has been the flagship product of the company and now is a website application for Fortune 500 corporations performing project budgeting and collaborative spend management.

In 2007 we wrote an extension to PerpetualBudget on the desktop to map Excel billing solutions to write invoices on QuickBooks. This was done for a water utility in Central California and has since become a website portal, PerpetualInvoice.com. The solution has been generalized beyond utility billing to modelling any item price and usage algorithms.
